PSYCH/MENTAL HEALTH PRE-CONFERENCE

Program Sessions | Thursday, April 23, 2026

1:00 - 2:00 pm | Bridging Practice, Community Outreach, and Pharmacology: A Holistic Approach to PMHNP Leadership (1 CE, .5 RX)

This session explores how PMHNPs can successfully navigate practice ownership, expand access through non-profit initiatives, and stay updated on the latest pharmacological advancements in mental health and addiction treatment. PMHNPs will share strategies for business development, grant funding, and integrating primary and behavioral healthcare to enhance patient and community outcomes.

Speaker: Dr. Tracy Hicks, DNP, MBA, APRN, FNP-BC, PMHNP-BC, CARN-AP, FIAAN, FAANP, FAAN

Dr. Hicks is an experienced speaker with several appearances and presentations across the country, primarily in Diversity, Equity, Inclusion, and Belonging (DEIB), Social Determinants of Health (SDoH), Emotional Intelligence (EI), Leadership, and substance use disorder treatment. She also serves as an advisor, consultant, and speaker in the pharmaceutical industry. Moreover, she is certified in addictions nursing and was inducted into the Fellows of the International Academy of Addiction Nurses in 2019 and the American Association of Nurse Practitioners in 2021.

2:15 - 3:15 pm | Autism: Identification, Key Information, and Treatment Considerations (1 CE, .5 RX)

With increased awareness and a 175% increase in Autism diagnoses, is your practice prepared to treat, diagnose, and manage this population? Patients with Autism present unique challenges in communication, comorbidity, and treatment adherence. Learn the best practices for this population.

Speaker:

Justin Scaffa, PMHNP

Justin Scaffa, PMHNP, has 10 years of experience, most recently in outpatient psychiatric care with all ages and diagnoses. He has especially worked with IDD patients, active, reserve and retired army, and does psychometric testing for complex mental health disorders like ADHD and Autism. He has experience in inpatient and partial hospitalization at an acute care psychiatric hospital and with substance abuse patients.

3:30 - 4:30 pm | Dementia Assessment with the SLUMS Test Update (1 CE, 1 RX, 1 G)

This presentation focuses on the pharmacological aspects and clinical considerations involved in defining dementia and assessing cognitive deficit disorders (CDD) in the geriatric population. It offers an organized, evidence-based approach to assessment and diagnosis using validated screening tools such as the SLUMS and MMSE. Additionally, it covers pharmacologic and non-pharmacologic management strategies, emphasizing current treatment guidelines, medication selection, monitoring for efficacy and side effects, and the role of pharmacotherapy in slowing cognitive decline and improving quality of life.

Speaker: Dr. Joanne "Jody" Minnick, DNP, APRN, ACNP-BC, FNP-BC

Dr. Minnick is faculty at Betty Irene Moore College of Nursing at UC Davis in the FNP-DNP Program. Dr. Minnick has been practicing for over 13 years as a nurse practitioner (NP) and has a clinical background in military research, emergency medicine, family practice, and geriatrics. Dr. Minnick has been caring for patients at various stages of their lifespan with a focus on geriatrics.

PHARMACOLOGY CONFERENCE

Program Sessions | Friday, April 24, 2026

8:30 – 8:45 am | Welcome Address

TNP President

8:45 – 10:15 am | Approaches to Hypertension: Pearls for Practice
(1.5 CE, 1 RX, .5 G, .25 E/J)

This interactive presentation delivers a comprehensive overview of hypertension diagnosis, management, and self-care, tailored for healthcare professionals and patients. It explores evidence-based diagnostic methods, pharmacokinetics of antihypertensive medications, and lifestyle strategies to address triggers like obesity, sedentary lifestyle, and obstructive sleep apnea. Engaging elements such as quizzes and clickable diagrams enhance understanding and application of effective hypertension management techniques.

Speaker: Jose Villa, DNP, APRN, FNP, BC

Dr. Jose L. Villa is a DNP, completed his BSN from Medical University of SC, and his MSN from the UTHSCSA. He completed his DNP from the University of the Incarnate Word. His Capstone project was geared toward the management of patients with atrial fibrillation and minimizing hospital readmissions in a large military institution. His experience includes cardiology, family medicine, and internal medicine.

10:45 am – 12:15 pm | Pediatric Antibiotics (1.5 CE, 1 RX)

This session will provide an overview of the latest updates in pediatric antibiotic use from the past 1–2 years, including changes in guidelines, resistance patterns, and new treatment options. Emphasis will be placed on evidence-based decision-making regarding when and how to prescribe antibiotics, as well as considerations for appropriate dosing and duration. Attendees will gain practical insights to optimize antibiotic stewardship in pediatric practice.

Speaker: Donna Schultz, DNP, APRN, NNP-BC, CPNP-PC

Dr. Donna Schultz is a double board-certified nurse practitioner in Neonatal and Pediatric care, with over 20 years of experience specializing in medically complex infants and children. She earned her Doctor of Nursing Practice from Johns Hopkins University, where her research focused on transitioning NICU patients into home and community care. Dr. Schultz currently serves as the Pediatric Track Coordinator at Baylor University's Louise Herrington School of Nursing, where she combines her clinical expertise with a passion for teaching and mentoring future nurse practitioners.

“I love the educational aspects of TNP and that they keep us aware of what’s going on.”

Graciela Barajas, FNP-BC
Westworth Village, TX
TNP Member Since 2025

PHARMACOLOGY CONFERENCE

Program Sessions | Friday, April 24, 2026 (continued)

1:15 – 2:45 pm | Practical Dermatology and Pharmacologic Approaches (1.5 CE, 1 RX, .25 E/J, .25 G)

Dermatologic concerns are among the most frequent reasons patients seek primary care. New graduate and early-practice nurse practitioners (NPs) often encounter skin conditions but may feel less confident in diagnosing and treating them, particularly with pharmacological options. This session will provide a focused, practical review of common dermatology presentations in primary care, highlighting evidence-based pharmacologic management. Emphasis will be placed on appropriate use of topical and systemic therapies, including corticosteroids, antihistamines, antibiotics, and antifungals. Clinical pearls on selecting potency and formulation of steroids, minimizing adverse effects, recognizing when to escalate care, and patient education strategies will be discussed. Case-based examples will reinforce decision-making in real-world scenarios. Participants will increase their confidence in identifying and treating common dermatologic conditions, selecting appropriate medications, and counseling patients on use, risks, and expected outcomes.

Speaker: Kathy Boozer, DNP, APRN, FNP-BC

Dr. Boozer is an owner operator of Inspired Skin+Wellness | Dermatology Clinic. She completed a dermatology internship in 2014 and has been practicing as a specialist in this field since. Dr. Boozer has a broad background in nursing with specific training and expertise in dermatology, skin cancer/melanoma, and community health/education. She is an active member of transdisciplinary research teams investigating the use of virtual simulation technology for prevention and early diagnosis of skin cancer and community-based wellness initiatives to improve socialization, healthy habits, and health in rural India.

3:15 – 4:45 pm | Integrated Pain Management (1.5 CE, 1 RX, 1 O)

Join us for an essential session focused on the evolving landscape of pain management. This presentation will explore a comprehensive, evidence-based approach to treating pain, integrating pharmacologic strategies with non-pharmacologic therapies. Nurse practitioners will gain practical insights into safe opioid prescribing, multimodal pain control, and personalized care plans that prioritize both efficacy and patient safety.

Speaker: Shahram Pajuh, DNP, APRN, AGACNP-BC,

Shahram Pajuh is an experienced advanced practice registered nurse with a strong focus on primary care and clinical leadership. Holding a Doctor of Nursing Practice (DNP), he is certified as a Nurse Practitioner (NP-C) and skilled in delivering high-quality, patient-centered care across diverse populations. Shahram's career has been marked by his commitment to integrating evidence-based practice with collaborative interdisciplinary teamwork to improve outcomes and enhance the patient experience. Known for his thoughtful approach, he brings both clinical expertise and organizational insights to the healthcare settings in which he practices.

Program Sessions | Saturday, April 25, 2026

8:45 – 10:15 am | Pharmacologic Management of Oral and Dental Conditions (1.5 CE, 1 RX)

This session provides an in-depth review of pharmacologic strategies for managing common oral and dental conditions, including pain, infection, and inflammation. Participants will gain practical insights into appropriate drug selection, dosing considerations, and potential adverse effects. Emphasis will be placed on evidence-based guidelines to optimize patient safety and therapeutic outcomes.

Speaker: Dr. Garry Myers, DDS

Dr. Myers is a graduate of the University of Texas Health Science Center San Antonio dental program and served in the U.S. Air Force as both a general dentist and later as an endodontist. He is the recent past president of the American Association of Endodontists, a role that took him across the country and internationally. He currently serves as Director of the Endodontic Graduate Program at Virginia Commonwealth University. A proud Texan at heart, Dr. Myers also has a unique background as a former drum major for the Longhorn Band and a longtime volunteer for Alaska's Iditarod sled-dog race.

PHARMACOLOGY CONFERENCE

Program Sessions | Saturday, April 25, 2026 (continued)

10:45 am – 12:15 pm | Pharmacologic Management in Hospice and Palliative Care (1.5 CE, 1.5 RX, 1 G, .5 E/J)

This session explores evidence-based pharmacologic approaches to symptom management in hospice and palliative care settings. Attendees will learn strategies for effectively addressing pain, dyspnea, anxiety, and other distressing symptoms while balancing safety and quality of life. The discussion will highlight best practices in medication selection, dosing, and monitoring to support compassionate, patient-centered care.

Speaker: Erin Pérez, DNP, APRN, ANP-C, AGNP-C, ACHPN

Dr. Erin Pérez, DNP, APRN, ANP-C, AGNP-C, ACHPN, is a board-certified adult and geriatric nurse practitioner specializing in palliative and hospice care. A three-time graduate of UT Medical Branch in Galveston, she is also an educator, author, speaker, and leader recognized with numerous local, state, and national awards. She made history as the first Texas NP elected to City Council and the first NP to chair a Texas advisory council. Dr. Pérez is deeply committed to policy, advocacy, and advancing healthcare outcomes through collaboration.

1:15 – 2:45 pm | Pharmacologic Management of Animal-Related Injuries (1.5 CE, 1 RX)

This session reviews evidence-based pharmacologic strategies for treating animal-related injuries, including bites, scratches, and envenomations. Participants will learn appropriate approaches to infection prevention, pain control, and management of allergic or toxic reactions. Emphasis will be placed on optimizing patient outcomes through careful medication selection, dosing, and monitoring.

Speaker: Sharon Quigley, DNP, MSN, BSN, FNP

Sharon Quigley, DNP, MSN, BSN, FNP, is a Family Nurse Practitioner and retired U.S. Army Nurse Corps Officer with over 15 years of experience. She earned her BSN from Pacific Lutheran University, MSN from the University of Phoenix in Honolulu, and DNP from Baylor University's Louise Herrington School of Nursing, where she is now a Clinical Assistant Professor. Her clinical background spans pain management, neurosurgery, orthopedic spine, anesthesia, and primary care. Dr. Quigley is active in professional organizations, serving as Treasurer for San Antonio Nurses in Advanced Practice and contributing to the Texas Nurse Practitioners education committee.

3:00 – 4:30 pm | Pharmacologic Management of Atrial Arrhythmias (1.5 CE, 1 RX, .25 G)

This session reviews current pharmacologic strategies for the management of atrial arrhythmias, including atrial fibrillation and atrial flutter. Participants will gain insight into drug selection, dosing considerations, and monitoring to optimize patient safety and outcomes. Emphasis will be placed on evidence-based guidelines and practical clinical applications.

Speaker: Halli Carr, DNP, APRN, ACNP-BC

Dr. Halli Carr is an Acute Care Nurse Practitioner with over 17 years of experience in practice, including ER, ICU, Surgery, Resuscitation, and Cardiovascular medicine. She currently leads the Cardiovascular service line for Baylor Scott & White – The Heart Hospital at Baylor Lake Pointe. Dr. Carr is also a Clinical Assistant Professor and DNP-AGACNP Track Coordinator at the Baylor University Louise Herrington School of Nursing, where she teaches Advanced Pharmacology.
